

Clearshield Coating

- Environmentally friendly transparent polymer coating to act as a repellent against water, soil and stain contaminant
- Chemically & mechanically seals, polishes and protects surfaces by using "isometric" polymers that bond to the surface.
- Guaranteed to be chemically inert, thermally stable and absolutely invisible after application
- Incapable of cracking, peeling or discolouring and can be applied and re-applied without distortion or build up.
- Keeps surfaces like new - reduces cleaning costs, repairs & replacements

Suitable for:

- Window cleaning, Restoration & Maintenance
- Curtain Walls
- Shower Doors
- Solar Panels
- Sandblasted Glass
- Printed Glass (Decorative)
- Marine / Automotive
- Veranda's
- Bathroom Privacy Glass

Properties:

Shelf Life - Indefinite (if kept in sealed containers)

Surface Coverage - Average 100m²/litre

Physical Form - Liquid

Appearance - Clear

pH: - 3.0
